EDUCATION

Jember State Polytechnic   **2021 - Present**

Information Technology

GPA 3.90 / 4.00

- Mobile / Website Developer.
- Participants at TEFA JTI Innovation by building Career Development & Counseling application of Jember State Polytechnic.
- 3rd place for IT PRODUCT EXPO in the 2023 Student Scientific Week Expo event.
- Mobile Developer and Website Developer in Research and Community Service EGovQual SOBAT (Surat Online Bantu Administrasi Masyarakat) in Kepuharjo Village, Lumajang Regency.

OBJECTIVE

I am a student of Informatics Engineering at Politeknik Negeri Jember who is interested in the world of web and android development. In the world of web development, I master the native PHP programming language and the Laravel Framework to create a
dynamic and responsive user interface and the tool used is visual studio code. In the world of mobile development, I mastered Flutter, Kotlin, and Java, with a focus on creating seamless and efficient applications for the Android platform and the tool used is androidstudio in application development. In addition, my interest in the world of android and web development encourages me to continue learning and digging deeper into how these technologies can be applied in my products, to improve quality and security. Coupled with my experience in developing android applications and websites from various projects from several clients ranging from thesis assignments and company system requirements etc. that I have made makes me more skilled in various aspects of software development. With the passion and desire to keep learning, I am determined to create innovative solutions that can make a positive contribution in the world of technology.

EXPERIENCE

- Studi Independen MSIB Batch 6 at Bangkit Academy Ied by Google, Tokopedia, Gojek, & Traveloka (Mobile Development Cohort).
